1978 marks an important year in China’s economic development. From that year on, reform and opening-up unleashed the power of the market, and cities started to take on a modern look. The advance of reform and opening-up injected impetus into the overall market, and cities started to take on a modern look.

The launch of housing reform China ushered in an era of commodity housing. It was also then that overseas capital began to enter the real estate market. The real estate industry had to face competition from domestic and foreign enterprises.

Since 1980, China has transformed itself into a socialist market economy. As the country’s market economy developed, it also had to face various challenges. The real estate industry was no exception. Following the market-oriented economic reforms, the real estate industry faced competitive pressure from various sectors. In order to meet the needs of consumers, the real estate industry needed to continuously improve its service quality, improve its products, and meet the needs of consumers.

Since the 1980s, cities have taken on a new appearance. Since the 1980s, the housing problems of residents have been solved one by one. In the past, residents had to live in simple, small houses. Now, residents can choose from a variety of housing types. People’s living standards have improved significantly. At the same time, the government has also taken measures to maintain housing affordability.

The real estate market is an important part of the overall economy. The development of the real estate market is closely related to the development of related sectors. For example, the development of the real estate industry is closely related to the development of transportation, communication, education, medical care, etc. The real estate industry is also an important part of the overall market.
